PHARMACOLOGICAL CLASSIFICATION
A. 22.2 Other: Nutritional substances that purport to have therapeutically or medicinal effects.

INDICATIONS
MultiVitChoice™ plus Omega-3 is a well balanced multivitamin, mineral and omega-3 supplement, specifically formulated for people who may be lacking in essential vitamins, minerals and seek to increase their intake of fish oil. MultiVitChoice™ plus Omega-3 assists in the prevention and treatment of vitamin and/or mineral deficiencies.

General health, energy and vitality
The essential vitamins, minerals and omega-3 fatty acids help support and maintain optimal health and well-being. B-complex vitamins are necessary to unlock the energy from food to support daily energy levels and vitality. Iron is necessary for the formation of healthy blood and to prevent anaemia.

Bone health
Calcium and vitamin D are necessary to maintain healthy bones.

Heart health
Folic acid, vitamin B6 and vitamin B12 as well as omega-3 fatty acids are necessary to support heart and circulatory health.

Immune health
Vitamin C, vitamin E and Beta-carotene are antioxidants which help to protect the body's cells from damage and support the immune system.

CONTRA-INDICATIONS
Hypersensitivity to any of the ingredients.

WARNINGS
Nutritional supplementation should not replace a balanced diet.[1]
Taking multiple supplements and multivitamins may cause a cumulative intake of certain nutrients and or substances.[1]

INTERACTIONS
Supplemental intake of certain ingredients may interfere with certain medication, other supplements and herbal products, diseases, conditions, laboratory tests and foods.
